Style Embellishment Guide

2019

Live Copy Update: July 2019

Last Hard Copy Distribution: July 2019

Con•dential File ©2019 Boxercraft

DEFINITIONS

* HPS = High Point Shoulder: the measurement from the top of the highest point of the shoulder of a garment to the top of the logo on the left chest.

FORMAT

*Book is color coded by

BLUE = TOPS

YELLOW = TANKS & DRESSES

ORANGE = PANTS

PURPLE = SHORTS

GREEN = OUTERWEAR

PINK = SPECIAL

INDIGO = INFANT

*Book is in numerical and alphabetical order by style and category

LOGOS

* Measurements shown are on left side of garment. Printing can be done on right side and other locations upon request.

* All logo sizing is "Boxercraft suggested" maximum sizing that we believe will look best.

* Customer may ask for special sizing but note smaller logos requested will be at customers own risk for print results based on complexity of logo.

* Anything requested larger than recommended sizing can be done once consulted with production staff and approved by customer.

* When customers request placement or sizing that is out of standard, production artist must note this on proof under special instructions.

* Print placements reflected in the style guide are "BOXERCRAFT" suggested placements to achieve optimum look and quality. Customers can request other placements on a garment. The only EXCEPTION is if in the "SPECIAL INSTRUCTIONS" section on the garment page points out a placement that is not capable of being done, then we need to relay that back to the customer.

* When making special requests for lettering please note lettering is created as one piece of art work, if a customer wants letters to be a uniform size/ individual letters (i.e. ALL LETTERS 4") same size that has to be noted to the art team to create all individual letters per customer.

* A note saying customer wants (i.e. 4" on top line lettering and 2" on bottom line lettering will be helpful)

* Proof art pictures given to customers are not actual size please refer to written measurements of artwork when approving.

* Prints on stretch fabrics will appear smaller on hanger but are actual size when worn.

* Printing is NOT AVAILABLE across zippers or seams.

CUSTOMER SERVICE

• Please note that on all lettering created for pants and sleeves lettering can be horizontal or stacked.

GREY UNDERLAY

*Art could require a grey underlay dependent upon the garment, garment/color, or art.
